

## NOT TRUE

### Is Reported Demand on the City Firemen for Contribution

### TRIBUNE'S STORY PURE FAKE

### MAYOR CRILLY DEMANDED A COMPLETE INVESTIGATION

### And Every Fireman in Service Signed Statement Vindicating the Administration.

The American Tribune of Wednesday, October 25, in conspicuous style on its first page under glaring headline beginning "Trying to Bleed the Firemen," printed a letter purporting to come from "a well known city fireman" charging the present city government with a violation of the law in demanding campaign contributions.

The direct charge of criminal violation of the law is made in this alleged letter. No names are given, but the "city government" is accused of the crime.

The Advocate did not reply to this accusation Thursday as it desired to make a complete investigation first. Below will be seen a statement signed by every fireman in the city's service denying the charge, a letter addressed by Mayor Crilly to Chief Bausch, demanding an investigation, and Mr. Bausch's reply vindicating the administration.

**Mayor's Communication.**

Mayor A. J. Crilly has handed the Advocate the following communications which are self explanatory:

Mayor's Office, City of Newark.

To the Chief of the Fire Department:

Dear Sir—In the American Tribune of the 25th inst. appears a statement, that the City Firemen had received a letter from the City Government asking for money, etc. You will cause an investigation to be made at once as to the truth of this statement and report to me your findings forthwith.

Respectfully,  
ANDREW J. CRILLY, Mayor.

Oct. 26, 1905.

**Chief Bausch's Reply.**

Office of Chief of Fire Dept., City of Newark, Ohio.

To the Mayor of City of Newark, O.:

Dear Sir—In obedience to the attached notice I have caused a complete and thorough investigation to be made in reference to the truth or falsity of the publication referred to, including examination of each fireman employed in said city and found:

First—That no fireman has received any letter or verbal communication from any city official or other person, requesting or demanding a contribution for campaign purposes.

Second—That no fireman has communicated with the American Tribune either by letter or verbally in reference to said matter.

Third—That said publication is wholly false. LOUIS BAUSCH, Chief of the Fire Department, City of Newark, Ohio.

It is now up to the American Tribune to explain about the alleged letter. The situation is just this: If the paper received such a letter, the writer lied; if it did not receive the letter, the paper has published a falsehood. In either case the charge is refuted and the members of the city government as well as the firemen themselves, are exonerated.

**Firemen's Statement.**

We, the undersigned, comprising all the firemen employed by the City of Newark, Ohio, hereby say that no city official of said city, has directly or indirectly, asked from any of us any contribution to any campaign fund, or otherwise solicited funds from us for political purposes, since the Municipal Code went into effect, nor has any of us received a letter from any official to that effect, during the present campaign.

That the article in Wednesday's American Tribune to the contrary is wholly false.

**As to Vacations.**

Previous to the appointment of the present Board of Public Safety each city fireman was given one day off in every eight, but was only relieved from duty from breakfast until midnight, and was expected to report at meal time and stay at the station until all the others had had their meals, which really, meant only a nine hour "lay off" each week. This rule only applied at the Central station.

The Board, after looking into the matter, decided to let the firemen themselves decide whether each would rather have a week's vacation in the year, or have a 24 hour relief every eight days. The firemen voted to ask for the 24 hour day in every eight, and the Board granted their request. As it is, each city fireman receives nearly 50 days' vacation in a year, whereas the police receive only the regular seven days.

The Board of Safety also allows each fireman to take a vacation during the year if he furnishes a substitute. Each day during the year, under the present rule, there are two firemen off duty.

### Apprehension Prevails In Imperial Circles of Russia.

### READY FOR ANY EMERGENCY

No Improvement in the Strike Situation, Which Is Pronounced Grave. Ministers Take Speedy Action on Political Measures—Strikers Strive to Create a Reign of Terror.

St. Petersburg, Oct. 27.—The great strike has proved most effective in forcing the government to speedy action on measures which have been slumbering in commission for many weeks. Wednesday the ministers, after a five-hour session, finished the final draft of a law creating a responsible council of ministers, and Thursday completed the revision of the statute granting freedom of assembly. Friday the ministers held another session to discuss the election regulations of the duma.

The tactics of the revolutionists in St. Petersburg are apparently to create a reign of terror. Warnings have been sent to merchants to close in order to avoid pillage and the torch. The doctors are receiving notifications ordering them to discontinue visits to the sick on penalty of death.

Apprehension apparently prevails in imperial circles. It is reported that the imperial yacht Polar Star is lying off Cronstadt, constantly under stear, and that the smaller yacht Stella is held in waiting at the wharf at Peterhof for emergency use.

Workmen at the admiralty works and other naval yards have joined the strike. Several officials connected with the state railways, which are under the direction of the ministry of railroads, also have gone on strike. The Socialist leaders are organizing a movement for the sale of arms to the strikers.

By the greatest exertion the government succeeded in moving trains manned by military operatives on a few railroads. Traffic was resumed irregularly on the Moscow and St. Petersburg railroad and on lines from Moscow to Brest and Kazan. The first efforts were directed to the moving of cattle trains so as to meet the pinch of approaching famine in the two capitals, and one trainload of cattle arrived at St. Petersburg and another at Moscow. Peasants are also driving cattle into Moscow. Scanty supply of milk, butter and eggs is arriving in St. Petersburg over the Finland railroad, the employees of which refuse to strike.

The situation, however, can not be regarded as much improved. The strikers at their meetings were as determined as ever to continue the strike, and the full force of the government railroad battalions is almost helpless in the face of the general strike on the railroads. The most encouraging feature of the situation is the absence of any widespread disorder.

General Trepoff, who has been placed in command of the St. Petersburg garrison and given an additional division of reinforcements, declared that he is simply able to maintain order, and the police are allowing the strikers to vent their enthusiasm so as to avoid a conflict. General Trepoff instructed the police not to interfere with the parades so long as they were orderly, but he gave notice that he was prepared to cope firmly with any disorder. He had printed in all the papers a notification that the troops would be ordered to use ball cartridges without any preliminary firing of blank cartridges in case there should be any outbreak.

## FORAKER

### Issues Statement on the Subject of Railway Rates

### TO SUGGEST AN AMENDMENT

### ELKINS LAW THE REMEDY FOR DISCRIMINATION

### Would Not Confer Rate Making Power on Commerce Commission-- Takes Issue With Taft.

Cincinnati, Oct. 27.—Senator Joseph B. Foraker has issued a statement regarding railroad rate regulation, replying particularly to the arguments advanced by Secretary of War Taft in his speech at Akron, O., last Saturday night. Senator Foraker takes issue with the assumption that those who don't agree with the remedy proposed by Secretary Taft are opposed to any remedy whatever. "So far as I am aware," says Senator Foraker, "it is universally admitted that an efficient and expedient remedy should be provided against all of them insofar as legislation can provide. The sole difference is as to whether conferring the rate-making power on the interstate commerce commission is even a necessary remedy. My contention is that it is not necessary and that of all the remedies that have been suggested it is unquestionably the worst."

The senator claims that shippers don't suffer from excessive rates or rebates at this time, and that their real grievance against the railroads is as to discriminations. These discriminations consist not only of discriminations between shippers and localities but discriminations between commodities, in classification, by means of terminal charges, elevator charges, refrigerator charges and many other kinds of charges and devices too numerous to mention.

He continues: "We undertook to deal with this trouble when we passed the Elkins law. In that statute we provided that it should be the duty of the interstate commerce commission, whenever it should have reasonable cause to believe that any unjust discrimination forbidden by law was being practiced, to cause a proceeding to be instituted in the circuit court of the United States having jurisdiction, and that it should be the duty of that court forthwith to proceed to hear and determine whether or not there was just ground for the complaint, and if so enjoin it. The supreme court of the United States has upheld the validity of this statute. It is now in force. There is no reason whatever why, if any locality thinks it is discriminated against, or any shipper thinks he is discriminated against, application should not be forthwith made for relief and relief secured if the charge can be sustained, for the court is by the statute expressly invested with full jurisdiction to entertain the complaint and administer a complete remedy. This statute has been in force ever since the 19th day of February, 1903. If the shippers don't take advantage of its provisions it is their own fault. I think that it can be made more explicit, and I have drafted an amendment which I shall at the proper time submit to my colleagues on the interstate commerce committee of senate. It is no hardship on the shipper, but a direct benefit to him, to require his proceeding to be under this statute, and it will be amended, for because of the fact that there can not be one change made without necessitating hundreds and perhaps thousands of others, every such proceeding would not be for the benefit of the complaining shippers alone, but for a whole community of shippers, hundreds and probably thousands. The proceeding would, therefore, in fact be on behalf of the public, and should be in the name of the government and at the expense of the government or the railroads, as the court might deem just and equitable, and in no case at the expense of the shipper."

London, Oct. 27.—A dispatch to the Exchange Telegraph company from St. Petersburg today states that fighting is hourly expected. Troops are ready to use machine guns in case of an outbreak on the part of the strikers.

St. Petersburg, Oct. 27.—A message from Warsaw today says an incendiary fire started there last night has not been extinguished and one part of the city is in flames.

St. Petersburg, Oct. 27.—Mounted Cossacks now patrol the streets. The government is holding a large force of troops in readiness to march to the quarters of the working men on Basil Island in the event of trouble as a result of the strike. The general opinion is there may be trouble but no general uprising. There is no confirmation yet of the rumors of military or any warship, or of reports that the troops at any point opened fire on the strikers. The reports show the strike is spreading throughout the empire. Several newspapers have been forced to suspend publication on account of refusals of the compositors to work.

## TO ISTHMUS

### Secretary of War Taft is to Start Tomorrow for Week's Visit

### TO STUDY CONDITIONS THERE

### SECURING DATA FOR REPORT TO BE SUBMITTED SOON

### Engineer Wallace Who Complains of Too Much Red Tape Is Asked for His Views.

Washington, Oct. 27.—In order that he may discuss intelligently in his annual report to congress the troubles of the Panama canal commission, Secretary of War Taft will start this evening for a week's visit on the isthmus. He will proceed by steamer to Hampton Roads, where tomorrow morning he will board the fast cruiser Columbia for Colon.

The secretary made his first trip to the isthmus a year ago, the result of which was a general shaking up of the isthmian administration. He has several objects in view this time. In the first place he wants to be able to present to the public the real reason why dirt has not been made to fly during the past year. As is well known the work of construction has been practically suspended. The canal commission claims that this was necessary in order first to make the canal zone sanitary and next to provide adequate housing and commissary facilities for the army of workmen to be employed later. Nearly all the force now on the isthmus is engaged in repairing the old buildings put up by the French and in constructing new quarters. The secretary will also look into the feeding problem and determine whether the commission was wise in assuming this burden instead of turning it over to private contractors.

The military men accompanying Taft will look into the matter of fortifications at Colon and Panama. As a result of their studies it is expected a comprehensive plan of defense for the canal will be presented to congress at the coming session. While on the isthmus, Taft will make an inspection of the whole route, the buildings, machinery, etc., and will inquire particularly into the condition of employees. It is expected also that he will in a general way investigate the question of the proper type for the canal—whether lock or sea level, so that he may be able to pass intelligently upon the forthcoming recommendations of the engineers.

**ENGINEER WALLACE**

Who Quit Job Owing to Red Tape in Washington Will Give Board His Views on Canal.

Washington, Oct. 27.—John Finley Wallace, formerly chief engineer of the Panama canal, will shortly appear before a board of consulting engineers by invitation to give his views on the canal construction, and the cause and method to be pursued by the canal managers of the United States. Mr. Wallace has resigned his position in Washington which he held for several years, because of the red tape in the government.

In the event of failure to reach an agreement it is expected that the five powers will take action.

## PRESIDENT

### In Collision With a Fruit Steamer Near Nairn, La.

### VESSELS AGROUND IN RIVER

### CAPTAIN REPORTS NOBODY WAS SERIOUSLY INJURED

### Lighthouse Tender Was Taking President to Cruiser West Virginia at Mouth of River.

New Orleans, Oct. 27.—The lighthouse tender Magnolia, with President Roosevelt aboard, was in collision with the fruit steamer Esparta, near Nairn, La., shortly after midnight. The news reached here today through a long distance telephone message from Captain Rose of the Esparta, who asked assistance sent Captain Rose reported both vessels aground at the river bank and said the Esparta would probably have to carry the President's party to the mouth of the river, where the cruiser West Virginia is awaiting. From this it is inferred that the Magnolia is badly damaged. Capt. Rose said no one was seriously injured. The tugs Wilmet and Woods left this morning for the scene of the accident.

Nairn is about 60 miles below New Orleans on the west bank of the Mississippi river. The Esparta belongs to the United Fruit Company and was on her way to New Orleans with a cargo of fruit. Efforts to communicate with Nairn by phone later were futile.

New Orleans, Oct. 27.—A dispatch from Empire, below Nairn, and 62 miles below the city on the river received at 8:15 says the Magnolia passed there two hours later.

Washington, Oct. 7.—The following official telegram from Commander Sears of the Magnolia in regard to the accident, was received this morning: "Magnolia struck on foredeck about 11 p. m. by steamer Esparta; no one injured and vessel grounded at 60-mile point. The President and his party were taken on board the lighter Ivy, and will arrive at West Virginia on time. It is believed the Magnolia can be repaired and can proceed with assistance."

The message was sent from Nairn, La.

New Orleans, La. Oct. 27.—The President passed Port Eads at the mouth of the river at 9:10 this morning. The difficulties in the way of communicating with points on the lower coast of the Mississippi river are almost insurmountable. There are no railroads on either side that afford transit and the impenetrable swamps make it impossible for any sort of vehicle communication. On either bank of the river is an indifferent telephone service, the only means of communication until the head of the passes are reached. Where there is a DeForest wireless station. All possible expedition has been made to get wireless telegrams from the West Virginia and from the President.

New Orleans, Oct. 27.—A telephone message received by the Scripps-McRae Press association at 9:50 a. m. from the Pilotown telephone operator says that the President boarded the West Virginia at 9:40 o'clock, and after firing a salute of 21 guns, she immediately weighed anchor and steamed away.

New Orleans, La. Oct. 27.—The President is now sailing through the Gulf of Mexico aboard the West Virginia on his way to Washington after an exciting experience. He boarded the West Virginia at 10 o'clock and started on his trip. The exact cause of the accident has not been learned, but it is thought the collision was caused by a heavy fog preventing the pilots from seeing the vessels. This message was dispatched by Secretary Loeb to Washington: "Notify Mrs. Roosevelt that the President's special boat collided with a steamer and was beached. No one hurt. President well." The President enjoyed the accident hugely. The fault is laid upon the pilot of the Esparta as the Magnolia had the superior right of way. An official statement regarding the collision was sent by wireless telegraph by Captain Lay, of the West Virginia, reciting the details and saying that the President is well.

# EIGHT CLUB LEAGUE NEXT YEAR

## Such Was the Plan Discussed at Akron Thursday

### ZANESVILLE IN SECOND PLACE

#### MANSFIELD, ASHTABULA AND ERIE ALL WANT A BERTH

#### Will Meet in Zanesville in January to Make Final Arrangements for 1935.

Akron, O., Oct. 27.—What the composition for the Ohio and Pennsylvania league is, is as yet a problem. A meeting of the old Protective association, now the Ohio and Pennsylvania league, was held here yesterday, but nothing definite was decided as to the make-up for the next campaign. Youngstown holds the key to the situation. This club, which drew some of the largest crowds in the association this year and which was awarded the pennant, has two strings to its bow. The Tri-State league, which is now the only outlaw organization in the country, wants Youngstown to become a member.

The plans of the Tri-State league are to have an eight-club league with the following cities: Harrisburg, York, Lancaster, Altoona, Williamsport, Johnstown, either McKeesport or Pittsburgh and Youngstown. Marty Hogan of the Ohio Works team, however, has notified the Tri-State officials that he has had enough of outlaw ball and that he prefers to remain under the banner of the national agreement. To this the Tri-Staters replied that they were willing to seek admission to the national commission, but under certain conditions.

These conditions are more, however, than it is expected the association will ever grant. They wish to keep every jumper on their lists, to be placed in class A and not subject to draft for three years. However, if the Ohio and Pennsylvania league can be made strong enough, Youngstown is liable to be lined up with its old rivals.

Eight clubs have now paid for protection under the national agreement as members of the league. They are Zanesville, Akron, Youngstown, Newark and Lancaster, Ohio, and Homestead, Braddock, and Butler, Pa. Of these Zanesville, Youngstown and Akron are the best baseball towns. Lancaster and Newark are dependent upon Sunday ball, early week games being poorly attended. Still they are backed by men who are game and are willing to go down in their pockets to cover any deficits. They have supported independent teams and strong ones at that, for many years. Braddock is improving as a baseball town, while Butler representatives thought that this town will be a winner as far as attendance goes.

A peculiar situation, however, is presented at Homestead. This town has a franchise and a reserve list with some good players attached. But the Carnegie Works, which has always backed baseball in that city, has withdrawn its support and released Manager Howard Risher, declaring that they are through with all professional sports. That leaves Risher with a franchise and no club. Consequently he desires to transfer his franchise to some other city.

McKeesport is anxious to take the place of Homestead, and Frank Torreyson, who is the father of baseball at McKeesport, was at the meeting to present the claims of his company. He has an option on grounds in the heart of the city and will begin the erection of stands as soon as he is sure the league is a go and McKeesport is a member. He wants nothing but organized ball, however. None of the independent brand for him.

Then there are Erie, Pa., and Ashtabula to be considered. Both were represented at the meeting. Erie was a member of the Inter-State league last season, but would listen to a proposition to join a league stronger than that with which they are affiliated, two of the inter-state league towns being extremely small, one having only 3,000 population. Ashtabula is more than anxious to become a member of the league and its representative, H. D. Cook, is sure that organized baseball would be a paying venture in the lake port. He also advanced the claim that his town would break the jump from Erie to Akron and the southern towns.

The clubs were represented as follows: Akron President Maurice Snyder; Youngstown, Manager Harry Hogan and Secretary Al Cook; Zanesville, Managers Ferd Drumm and W. O. Anderson; Homestead, Howard Risher; Lancaster and Newark, Harry Smith, president of the Lancaster team; Butler, Dr. E. L. Wasson; McKeesport, Frank Torreyson; Ashtabula, H. D. Cook; Erie, F. Baumeister, president of the Interstate league, and Dan Koster, president of the Erie club.

The session was inaugurated by the adoption of a report of the auditing committee, which had examined President Morton's books. Mr. Morton announced that at various times during the year 18 clubs had belonged to the association, but that only eight were in line for next year. He referred to the failure of the official scorers in the various towns to send in the official scores, and as a result there will be no official averages this season. In only two towns were averages submitted for the season.

On motion of President Snyder Youngstown was formally declared the champion, with Zanesville, Akron, Niles and Lancaster claiming second honors.

"Best league I ever saw," remarked Ferd Drumm of Zanesville. "One champion and four teams in second place." And then he complimented Marty Hogan, the manager of the champions, by remarking: "A good club and a good noodle directing it."

Zanesville's claim to second place is considered the legitimate one.

An informal discussion then took place regarding next year, and it was decided to have President Morton take a trip around the circuit and report at a later meeting as to the eight best towns for the league, also giving the mileage that would be required of each team throughout the season. This meeting will probably be held at Zanesville, upon the invitation of the Zanesville managers. The constitution will be revised to suit the requirements of organized baseball.

Among the routine business transacted was the awarding of three victories to Zanesville over Niles, the latter club failing to appear.

The adjournment was subject to the president's call.

President S. K. Hayes of the Newark baseball association was unable to attend the meeting at Akron Thursday on account of his business here. Manager Anderson of the Mogul club represented Mr. Hayes in the business meeting and transacted the business for the local club.

### Case Carries Its Own Drinking Water

Columbus, O., Oct. 27.—One of the funny little side lights to the Case-Ohio football game here Saturday is the fact that Wentworth's team will carry from Cleveland all the water it drinks before the game. Case last year had trouble with the water here and the same thing happened at Delaware when Wesleyan was met. It is to guard against this contingency that the Lake Erie brand was decided on as the official beverage.

### Rain Stopped Practice

Owing to rain the A. A. team of Newark could not get out to practice Wednesday night and therefore all players are requested to be present for special practice tonight as there will be some new plays tried, and arrangements made to go to Coshocton. All enthusiasts of this sport are cordially invited to accompany the team. Will leave on the Pennsylvania railroad at 12 o'clock.

### REGISTRATION TOMORROW.

## ACKERMAN QUILTS

Again on Max Luttbeg, and it is Said He Made a Pretty Penny by the Move.

The lovers of wrestling in Newark are puzzled over the latest action of Al Ackerman the Great, who was scheduled to meet Max Luttbeg at Fostoria last Tuesday night. The foxy Ackerman for some reason which remains yet unexplained, postponed his match with Ackerman, after all the money was posted, and wrestled Max Wylie, a Michigan athlete, claiming him to be the unknown who was advertised to wrestle the match.

Luttbeg is indignant. He says that Ackerman knew all the time that he (Luttbeg) was the unknown and that he simply obtained another bunch of the people's money and then postponed the match, substituting Wylie, whom he could defeat.

Max is still anxious to meet Ackerman. He will meet him any place and for any side bet or forfeit named. Elmer Woodmansee, a well known sport, is behind Luttbeg and a match will yet be pulled off or Ackerman will lose what friends he now possesses.

Catholics 21, Centrals 0.

The football team representing the Catholic school defeated the Central building team Thursday afternoon at the "Y" field in an interesting game of football. The game was featured by the all round playing of John McCarty, who played right half for the Catholics. He scored four touchdowns and kicked one goal. Paul Collins of the Central school team played the star game for his eleven. Goodwin of the High school, refereed and umpired the game.

# COSHOCTON READY

For the Newark Bunch Saturday—The Team is Being Strengthened for the Contest.

Coshocton, Oct. 27.—The Coshocton football squad, after taking a two days' rest after the hard game with the Canton team, was out again for practice last evening. Coach Lamma was gratified to know that the men all came out of the Canton game without any injuries and everybody is in good condition for the coming struggle with the Newark outfit at River side park, Saturday.

Coshocton will likely have the strongest line-up so far put out this season, for the Newark game. The ends, which have been weak all season on account of inexperienced men, will be well taken care of by Brennan, Martin and Qually. Then the addition of Stewart behind the line will give the team one of the fastest backs in the business.

## BIRD LEAVES A 15 YEAR-OLD-WIFE

Zanesville, Man Killed at Junction City N. Y.—Victim and Miss Crosby Left Together Aug. 21.

Zanesville, 27.—One of the saddest features of the tragic death in the railroad yards at Jamestown, N. Y., of Edward Bird, aged 35 years, son of Mr. and Mrs. M. B. Bird of South Zanesville, is that he is supposed to leave a 15 year old widow, formerly Miss Nora D. Crosby, daughter of Mrs. Addie Andrews of South Zanesville.

Bird and Miss Andrews left together to get married August 21. No more has been heard of the girl and relatives and friends of both of them believe they were married. The Andrews girl, now believed to be Mrs. Bird, will be 15 years old this December. Her father was killed on the railroad seven years ago and the second tragedy of her life is the killing of her husband of but a few weeks in the same manner.

New Window Glass Factory to be Located There—Central Factory Makes Good Glass.

Utica, O., Oct. 27.—Three weeks ago parties from Converse, Ind., were seeking a location for a window glass factory. They said upon leaving that if they could get a gas contract on certain terms they would build here and have a 12-pot plant in operation by January. A few days ago a communication was received from them to the effect that the terms of the Utica Gas company are satisfactory and that they will locate here. They are expected at Utica in a few days to close a contract and select a site. An acre and a half will answer their purpose, they say.

Miss Hazel Richards of Hebron, has taken the position of night operator at the Utica telephone exchange, in place of Miss Maud Dixon, who has resigned to take a position in the Herald office. Miss Dixon has served as

night operator for more than two years.

Marion parties have taken a thirty days' lease on the John Lee land, east of Mt. Vernon, and are reported to be contemplating the building of a brewery on it.

The ladies of the Church of Christ will give a chicken dinner in the Town Hall on Saturday.

Mrs. McCann has removed to Allegan, Mich., where she will make her home with her daughter.

The Central factory is resting a few days until the flatteners catch up. They have been running three shifts, 36 blowers, making fine glass.

## President of the Council.

In all Newark's history the city has never had a more popular or efficient President of the City Council than the present incumbent, Mr. Harry Rosell. For several years prior to the new code Mr. Rosell occupied the position and distinguished himself by the satisfaction he gave to all.

Mr. Rosell possesses in a marked degree those qualities which one expects to see in an ideal presiding officer of a body like the City Council. He has a keen mind, a high ideal of justice to the minority and presides with a great dignity which is innate and could not be successfully assumed by one who did not by nature possess it.

Mr. Rosell uses excellent judgment in cutting off unnecessary arguments, without in any way interfering with intelligent debate, and in this way the council proceedings are never tedious and long drawn out.

Personally Mr. Rosell is genial, affable and kindly in his intercourse with those with whom he comes in contact, and this quality has its full exemplification in his dealings with the members, as president of the council.

The position under the new code is of much greater importance from a business point of view than under the old system. This was understood when, at the city election in 1903, Mr. Rosell was chosen to fill the position by the people by such a pronounced majority. Knowing his qualifications and peculiar fitness the people voted for him at that time and they have felt more than justified by the highly satisfactory manner in which he has fulfilled all expectations. Having filled his first term under the new code in such a highly creditable manner, the people will not fail to elect him to a second term by the majority he so well deserves.

Miss Pauline Chrisman of Pacific, Col., has been sworn in as a full-fledged politician.

# Leading Republican Lawyer to Stump for Pattison.

A special from Columbus says:  
"Harry Probascio, former attorney for the C. & D. Railroad company, and a leader in the fight against the 'electric mule,' has accepted an invitation to tour the state with John M. Pattison, Democratic candidate for Governor. In a letter to Chairman Harvey Garber Probascio says:

"Before Governor Herrick was nominated for re-election I publicly gave as my humble opinion that the Republican machine would make a great mistake to renominate so vulnerable a candidate. This prediction has been verified by the tremendous revulsion among Republicans evidenced everywhere throughout the state by their unqualified opposition to the election of Mr. Herrick.

"Since his nomination I have made no secret of my approval of the candidacy of Mr. Pattison and at first thought it would be wise for the great mass of Republicans not allied directly or indirectly with the machine and the free voters of the state of all parties, to confine their opposition to the head of the Republican ticket alone, but more reflection and an accumulation of evidence impels me to now favor the defeat of all the machine-made candidates on the Cox-Herrick ticket, who have impudently stolen the vestments of the great Republican party.

"I am a Republican and would if practical electors, a United States senator or members of congress were involved be found actively in support of the Republican nominees, but I believe that if Roosevelt lived in Ohio he would take a stand against the perpetuation of the political monopoly syndicate or trust controlled by Herrick, Dick and Cox. Measured by their lives, I believe, that the spirits of Sherman, McKinley, Garfield and Matthews cry out against the measures and policy of the Cox-Herrick-Dick oligarchy."

## J. R. Atcherley.

Hon. J. R. Atcherley, candidate for re-election to a second term to the important office of Justice of the Peace, scarcely needs any introduction at our hands, as he is one of Licking county's best known and highly esteemed citizens, where he has resided nearly all his life. In addition to being an honorable, upright man, and a thorough gentleman who is deservedly popular in both parties, Mr. Atcherley is a first class lawyer, and is therefore competent and qualified for the office of Justice of the Peace in a city and township like Newark. There is a great deal of litigation in the Justice courts in this city, both civil and criminal, and the necessities of the office demand a man who is competent and qualified for it. A man who does not understand the law cannot fill the office properly. Mr. Atcherley studied and practiced law successfully for a number of years. He has a legal mind and is careful, fair and impartial in the conduct of his office, and his decisions give general satisfaction. Mr. Atcherley was a brave soldier in the civil war for the Union, serving gallantly through the war as a member of Co. H, Thirty-first O. V. I., and many of his old comrades, irrespective of party, and knowing that he is the only competent candidate in the race, will vote for him for a second term.

## A Local Republican View of It.

Said a prominent Republican of this city to another yesterday:

"Herrick lost the psychological moment of his life by keeping still on Monday. If he had then publicly said, as he had the best chance in the world to say, that he endorsed Judge Taft's speech in regard to Cox, I would have believed that there is no alliance between Cox and Herrick. And I would have voted for him. I wanted him to say so. I wanted him to give me a reason to vote for him. But no. He did not say a word to show me that he was in sympathy with what Judge Taft said. He kept still; or, rather, both he and Dick took pains to say they had nothing to say.

"This satisfied me that Governor Herrick is not opposed to Cox and his gang rule, and it goes a good way towards satisfying me that he dare not oppose him because there is an understanding between them. Governor Herrick was called upon to speak. He can't keep still under such circumstances and have my support. I will not vote for him, and I never regretted any but the Republican ticket."

# CATHOLIC COLUMBIAN PRAISES TAFT FOR DENOUNCING BOSS COX

Under the caption, "Political Bossism," the Catholic Columbian, the leading Catholic weekly of Ohio, in this week's issue, says:  
George B. Cox of Cincinnati is notoriously known as the great "boss" of the Republican party of that city and of Hamilton county, and is now and has been for some time accused of bossing the Republican party of the state of Ohio.

This man Cox, some years ago, owned and managed a gambling dive in Cincinnati. Since he became famous as a political boss, he has become enormously wealthy by the use and abuse of his political power. For a very long time he has controlled the delegates of his city and county to many of the Ohio state Republican conventions, and in nearly every convention he held the balance of power and there PRACTICALLY DICTATED ALL THE NOMINEES FOR STATE OFFICES ON THE REPUBLICAN TICKET.

Many of the judges of the state, county and district courts were under obligations to him for their nominations. So great has been his political domination that he has even compelled several of the high state officials to appoint a certain well known Democratic politician of the city of Columbus to a very important position, even against the united protest of a large number of the heaviest taxpayers of the city.

It is alleged that some time prior to the last Ohio state Republican convention he determined to defeat Governor Herrick for renomination, but after securing pledges and promises from the governor and his friends he consented to the renomination of Mr. Herrick, and the governor is now accused of owing his nomination wholly to Boss Cox.

William Taft, who is a resident of Cincinnati, is President Roosevelt's secretary of war. Secretary Taft knows George B. Cox, and, evidently, despises him and his methods. Secretary Taft delivered a political speech at Akron last Saturday that has aroused much public attention. He said, among other things: "If I were to vote in Cincinnati this fall, I would not support the Republican city ticket," and further: "If I believed that Governor Herrick was dominated or influenced in his public acts by George B. Cox, I would not be here." These utterances of President Roosevelt's war secretary are the strongest and boldest protests ever made against George B. Cox by any notable Republican politician of Ohio, or elsewhere, and indicate very strongly, that President Roosevelt is IN FAVOR OF THE OVERTHROW OF COXISM AND BOSSISM IN THE STATE OF OHIO. The firm and bold stand taken by Secretary Taft, no doubt with the knowledge and approval of the President of the United States, DESERVES THE PLAUDITS OF ALL GOOD CITIZENS EVERYWHERE.

## Jacob M. Farmer.

Mr. Jacob M. Farmer, the Democratic candidate for Township Treasurer, is so well and favorably known that no words of praise in his behalf are necessary. It goes without the saying that everyone knows him and everyone likes him. Clever, accommodating and popular, no man in Licking county stands better in the public estimation than does Jacob Farmer. Born and raised on a farm, some miles east of the city of Newark, in good old Hanover township, Mr. Farmer has always known what it is to work, and is emphatically a self-made man. He is full of life and energy and is as genial as he is energetic, having hosts of friends in both parties.

As secretary of the Licking County Agricultural Society, Mr. Farmer has performed invaluable service for the farmer and the agricultural interests and the business interests of the city and county generally. He has been painstaking and untiring in his efforts to make our annual Licking County Fair a success and the splendid results that have followed—as amply witnessed in our recent successful fair—are largely due to his intelligent and tireless efforts as secretary of the board.

Mr. Farmer is now a candidate for a second term to the office of Township Treasurer which he has filled so satisfactorily to the people of the city and township of Newark. He deserves well to be re-elected, and he undoubtedly will be by a good majority.

Isn't it pretty brazen for Herrick to deny that George B. Cox controls him when Cox forced him to abandon his engagement with the Rev. Morgan Wood, whom the Governor had publicly announced as his selection to place him in nomination at the Republican State convention? The Governor was forced to select another man to nominate him at the demand of Cox.

President Roosevelt gave the managers of his party in Ohio an opportunity to redeem themselves from the charge of bossism if they will. Secretary Taft's speech against George B. Cox was the opportunity. The Secretary had his speech written out and read it from manuscript and that he said just what Roosevelt wanted said is undisputed. The question is will the Republican voters throw the opportunity away? If they throw this opportunity go by to put Cox permanently out of state affairs they can expect to have in the state the same conditions that Secretary Taft laments about Hamilton county.

## Peter W. Brubaker.

The office of Infermary Director is an important one, as to that board entrusted the interests of the unfortunate poor of the county. Humanity demands that these wards of the county be properly cared for, and at the same time the interests of the taxpayers should be guarded in the way of preventing extravagance and mismanagement in discharging that important duty.

Mr. Peter W. Brubaker, the Democratic candidate for Infermary Director, is one of Licking county's best known citizens, who is eminently qualified for this position. Born in Licking county some 59 years ago Mr. Brubaker has been a life-long resident of the county and one of its most successful farmers and business men. When only 15 years old young Brubaker bought and shipped stock, in which business he continued for about 15 years. He then became a farmer, which business he followed successfully until some three years ago, when he went into the grain and feed business in which he has made a success. Mr. Brubaker has served the public very successfully as township trustee in Licking township. Mr. Brubaker is an active member of the Baptist church and an honest, enterprising citizen, justly popular with all classes of people.

## A FARMER

Gives Some Pointed Reasons Why Graham Should be Defeated for Commissioner.

(Communicated.)

It seems that the voters in John S. Graham's part of the county, especially in his own and adjoining townships are becoming restless and impatient because of his neglect in looking after their roads and bridges, and well they may be when they remember the promises he made three years ago, when he was a candidate before. The people in that part of the county think it about time he is looking after their interests a little, especially so when T. C. Jure is having car loads of crushed stone shipped to his station and is piling his roads in grand style. The voters of McKean and adjacent townships are not objecting to Commissioner Jure in handling car load after car load of crushed stone on the old National pike, and roads leading to his home, but they do object to Jure's cleverness in convincing Graham that the roads in Licking township near Jackson town, are exceedingly bad, and that they have more bridges and better roads now in Graham's territory than the people deserve. Jure seems to think that Graham can fool his people, at least another time, but in this he is mistaken, as there are many electors in Graham's party in Graham's vicinity, who are outspoken in their support of James M. Crawford. They say they have the utmost confidence in Crawford's ability and honesty in looking after the interests of the whole county, and furthermore the opposite party ought to have a representative upon the Board of County Commissioners.

A FARMER.

Staubenville, O., October 27.—Rev. John S. Rutledge a Republican, of Cleveland, addressed an anti-Herrick Republican meeting in front of the court house last night. He made a telling speech against the Cox and State Fire Marshal's machines, bossism and graft. He said Herrick did the bidding of the liquor men in his attempted changes of the Brannock law. Mr. Rutledge who has been speaking six times a day in Carroll, Harrison and Jefferson counties, says the ballots will be a surprise to the Republican machine leaders on election night.

## CASHIER CLARK

Said to be Still Alive—Is Alleged to Have Had a Dummy Corpse Substituted for His Own.

Pittsburg, Oct. 27.—Some members of the police and detective force here, in addition to some of the most responsible bankers of the Smoky City, declare their belief that T. Lee Clark, the cashier of the defunct Enterprise National bank, which Clark is alleged to have wrecked, is still alive.

Though the story of Clark's suicide has been told with much respect for detail, many people here think that the alleged suicide act was a make-believe, and that Clark is still living. They explain the circumstances by saying that Clark is in seclusion, and that a dummy corpse was substituted by friends of Clark and the bank and by politicians who are said to have aided in the looting of the institution.

Some of the most skilled detectives in the city are working on the theory that Clark is alive. They are carefully going over the grounds of the suicide story, and if they find that a fake corpse was substituted they will exert their efforts to run the Cashier to earth.

In order to make sure whether or not Clark is dead, the body buried as that of Clark will be exhumed in the

event the officers can get permission to reopen the grave. In this connection it is said, they will have some trouble to get the permission. More over, a tear-up in the National Banking department is said to be about due. The Enterprise National, it is said, had been insolvent for a number of years, yet the alleged fact was never disclosed by the examination of the bank's affairs. A big staff of experts has been put in charge of the Enterprise National and the question that confronts the department is, whether or not the examiners examine.

## RAINGOAT SEASON

Never was there such a season of popularity for these pretty garments whose beauty and utility puts there former rival, the mackintosh, so far in the shade. No ugly rubber smell, no hard, awkward lines, but just as pretty and stylish as a regular cloth coat. The only difference is that in the rain coat, the cloth is "Cravennetted" or made waterproof.

Saturday you can buy these at a reduction. We have a number of styles, including our very fine garments, material Priestly Cravenette and other fine water-proof coats in which we have not a full range of sizes, we will close them Saturday,

## OVERCOAT DAYS

AT

### MERIDITH'S NEW STORE

OUR OVERCOAT stock—and a fine one to, is holding a public reception this week—won't you come? These Overcoats are simply the "best ever." Not an old style in the lot—not an obsolete pattern—not a poor fabric—not a careless stitch of tailoring. That's the kind of an Overcoat YOU want this winter, and it's the kind you'll have if you buy it at MERIDITH BROS.' new store.

A Lot of Comfort In a Good Overcoat

and a lot of discomfort in a skimpy, ill-fitting one. Half the comfort is in the fit, and the way the coat sets. You'll find all these coats fit perfectly—and they're the kind of coats a man is proud to wear. You'll find they retain all their good looks and comfort until they're worn out—that'll be quite awhile.

Right Up-to-the-Minute In Style

Of course you look for new styles and right styles in a new store. Nothing else here—do you like a LONG COAT? We can please you to a dot. LONG COATS include new "PAD-DOCKS" and "SURTROUTS" light fitting and distinguished. Then there are handsome "REGULAR" LENGTHS, with all the little features usually found only in custom-tailoring—then we've FLUSTERS, REEFERS, TOP COATS, RAIN COATS, ETC. Each individual coat a good one—worthy of the store.

He was for a number of years on the bench of the District court of which Licking county was a part, and for a number of years has been on the Common Pleas bench, Highland county. The judge's rulings are clean cut, and to the point. They show much learning and the great amount of experience he has had in practicing at the trial of law suits.

### Motion for New Trial.

In the case of Levi Knowlton vs. the Logan Natural Gas and Fuel company, Twigg and Irick and M. R. Swartz, the defendants by their attorneys, Lawrence T. Neal and James R. Fitzgibbon, have filed a motion for a new trial, for the following reasons:

First—Said findings of fact are contrary to and against the weight of evidence and the law.

Second—The court erred in its conclusions of law.

Third—Said conclusions of law are not supported by the evidence in the case.

Fourth—That the conclusions of law are not supported by the findings of fact, and are contrary to the same.

Fifth—That the judgment is contrary to law.

Sixth—That the judgment was given for the plaintiff, when it should have been given for the defendants.

Seventh—And for other manifest errors apparent upon the face of the record.

### DEFENDS HERRICK.

Bellefontaine, O., Oct. 27—Rev. Jas. J. Mulloney, a United Brethren preacher of Delaware, made a Republican speech at Belle Centre last night, replying to a personal attack made upon him by Rev. P. A. B. of the Anti-Saloon League, of this city, a few weeks ago. He also defended the action of Governor Herrick. Mr. Mulloney was indicted to a criminal offense in Licking county not long ago, was in jail and was tried by the court.

### BRITISH TREATY SIGNED.

London, Oct. 27—An agreement treaty between Great Britain and Denmark was signed in London on October 27.

At a special meeting of the Newark City Council Thursday night, attended by a number of business men, the proposition to abandon that portion of the Ohio canal in the city of Newark was considered.

Attorney Charles L. Flory addressed the meeting on behalf of the citizens and explained that Messrs. Piggs and Ickes had requested the State Canal Commission and the State Board of Public Works to lease canal property between Fifth and Front streets for the purpose of erecting buildings thereon. Mr. Flory explained how such an action would decrease the value of property which abuts on the canal and urged the councilmen to ally themselves with the citizens in stopping the proceedings.

A resolution was introduced by Mr. Moser which called for the appointment of a committee by the council's president, two members of which should be Solicitor P. B. Smythe and President J. P. Lamb, of the Board of Public Service. This resolution was unanimously adopted and in addition to the above named men, Councilman William E. Miller was designated by President Russell to serve on the committee. This committee will act with the citizens' committee.

The property owners regard the canal as a nuisance and a menace to health. They oppose the proposition of leasing it for the purpose of boarding it over and erecting buildings thereon, and will seek to have the old water way abandoned and converted into a street.

## FRED DAVIS CAN NOT BE FOUND

YOUNG COLLECTOR IS REPORTED TO BE SHORT IN HIS ACCOUNTS.

Employers Can Not State Amount of Alleged Shortage—Is Said to Have Debts About Told.

Fred Davis, who has been employed by C. R. Parrish & Co., of South Third street, as a collector, left Newark Saturday night and has not been seen or heard from since.

An investigation has shown a shortage in his accounts, according to his employers, but it is impossible for them to state at this time the exact amount, although Manager Gamble said he feared it would be quite large.

Young Davis lived with his mother at 169 Eleventh street. He had some expensive habits, which his salary did not warrant him in keeping up, so it is alleged.

The young man is said also to have left many debts over the city.

## CATARRH THE PLAGUE OF WINTER

Every Catarrh sufferer dreads the return of cold weather, for at the first cold breath of the season this plague of Winter is fanned into life with all its miserable symptoms. The nostrils are stopped up, and a constant dripping of mucus back into the throat keeps up a continual hawking and spitting, the patient has dull headaches, ringing noises in the ears and a half sick, depressed feeling all the time. Every inner lining and tissue of the body becomes inflamed, and secretes an unhealthy matter which is absorbed into the blood and distributed to all parts of the body, and the disease becomes constitutional. The catarrhal poison brings on stomach troubles, attacks the kidneys and bladder, attacks the soft bones of the throat and head and if not checked leads to Consumption. A disease so deep-seated and dangerous cannot be washed out, neither can it be smoked away. Syringes, washes, inhalations, etc., are useless, because they only reach the membranes and tissues, while the real cause of the disease is in the blood. S. S. S. cures Catarrh because it attacks it through the blood; it goes into the circulation and drives out all unhealthy accumulations and catarrhal matter, and when this is done every part of the system receives a supply of rich, pure blood. Then the inflamed membranes and tissues heal, all discharge ceases, the depressed feeling of the body is relieved, and every symptom passes away. S. S. S. goes to the very root of the trouble, and by purifying and enriching the blood and building up the entire system, cures Catarrh permanently. You have Catarrh do not waste time with local remedies, but begin S. S. S. and write for our book and any medical advice without charge.

**CALEB POWERS'**

**And Other Important Cases are to Be Heard in Supreme Court.**

Washington, Oct. 27.—Several important murder cases of more than ordinary interest will occupy the attention of the Supreme Court of the United States at the present term.

Two of them grow out of the assassination of Governor Goebel, of Kentucky. Jim Howard who is supposed to have fired the fatal shot and who has thrice been convicted, brings up his case on writ of error, appealing from the life sentence of the court below. Motion to advance the case on the calendar has been denied, but it will probably be reached some time in December. A motion to advance the case of Caleb Powers will be made next week. Powers, who is declared to have been the arch conspirator in the Goebel case, has also been convicted three times, and is now under sentence of death. Judge Cowan of the Federal court in Kentucky, removed the case from the state court and held that it should be reviewed by the federal court as the prejudice against Powers is such that he can not get a fair trial in the state court. From this order of Cowan the State of Kentucky has taken an appeal to the Supreme court of the United States, where it will be argued within the next few weeks.

The third case now of interest is that of Anna Valentina, an Italian woman who murdered Rosa Salza near Hackensack, N. J., and she is under sentence of death. It presents features of international moment, since the Italian ambassador has taken steps to protect the woman's legal rights. The case comes up on appeal from the order of the court below, denying the woman's prayer for a writ of habeas corpus. The principal question raised regards her plea. She first admitted her guilt but afterwards changed her plea to not guilty. Her attorneys contend that thereupon the jury should have determined whether or not she was guilty, whereas, what the jury really did was to presuppose her guilty and merely fix the grade of her crime as murder in the first degree. The Italian embassy took up the case on the ground that a treaty between the United States and Italy guarantees to Italians in criminal cases the same rights accruing to American citizens and that this treaty was violated because an American citizen would have been put on trial to establish his innocence or guilt, not merely to determine the degree of the crime. A motion to advance the hearing of this case will soon be submitted.

Another murder case of national notoriety is that of Mary Mabel Rogers of Vermont. She is also under sentence of death and whose appeal as in the Valentina case is from the order refusing her prayer for a writ of habeas corpus. She murdered her husband, throwing him into the river after chloroforming him. Her case has been advanced to be heard Nov. 6.

**ITALIAN COMMERCE**

Affected by News from St. Petersburg. Witte's Appointment Gives Satisfaction There.

Rome, Oct. 27.—The news from St. Petersburg that Count Witte will be premier of the new ministerial cabinet, with high powers, has produced great satisfaction here, and the belief is expressed that he will be successful in restoring order throughout Russia, as he was in bringing about the conclusion of the treaty of Portsmouth. The Russian disturbances will have an injurious effect on Italian commerce by preventing the exportation of silk and fruit. The latter is sent there from Italy in considerable quantities.

**Railway Restrained.**

Omaha, Neb., Oct. 27.—Judge Nunn in the United States district court granted an application of the Union Pacific Railroad company for injunction restraining the Chicago, Burlington and Quincy railroad from interfering with the construction of a line being built by the Union Pacific up the North Platte valley. The application prays that the injunction be made perpetual.

**Lena Sails.**

Washington, Oct. 27.—The navy department has been informed that the Russian transport Lena, which has been interned at Mare Island since last spring, sailed from that navy yard for San Francisco. She has been released and will return to a Russian port, sailing Sunday.

**Raffles, The Amateur Cracksman**

By E. W. HORNUNG

"I didn't say as I was, sir," replied the policeman. "But that's queer talk for a gentleman like you, sir, in the British museum." And he wagged his helmet at my invalid, who had taken his airing in frock coat and top hat, the more readily to assume his present part.

"What," cried Raffles, "simply saying to my friend that I'd like to lift the gold cup? Why, so I should, off-icer, so I should! I don't mind who bears me say so. It's one of the most beautiful things I ever saw in all my life."

The constable's face had already relaxed, and now a grin peeped under the limp mustache. "I dare say there's many as feels like that, sir," said he.

"Exactly, and I say what I feel, that's all," said Raffles airily. "But seriously, officer, is a valuable thing like this quite safe in a case like that?"

"Safe enough as long as I'm here," replied the other between grim jest and stout earnest. Raffles studied his face. He was still watching Raffles, and I kept an eye on them both without putting in my word.

"You appear to be single banded," observed Raffles. "Is that wise?"

The note of anxiety was capitally caught. It was at once personal and public spirited—that of an enthusiastic savant, afraid for a national treasure which few appreciated as he did himself. And, to be sure, the three of us now had this treasure to ourselves. One or two others had been there when we entered, but now they were gone.

"I'm not single handed," said the officer comfortably. "See that seat by the door? One of the attendants sits there all day long."

"Then where is he now?"

"Talking to another attendant just outside. If you listen you'll hear them for yourself."

We listened and we did hear them, but not just outside. In my own mind I even questioned whether they were in the corridor through which we had come. To me it sounded as though they were just outside the corridor.

"You mean the fellow with the billiard cue who was here when we came in?" pursued Raffles.

"That wasn't a billiard cue. It was a pointer," the intelligent officer explained.

"It ought to be a javelin," said Raffles nervously. "It ought to be a pole-ax! The public treasure ought to be better guarded than this. I shall write to the Times about it. You see if I don't!"

All at once, yet somehow not so suddenly as to excite suspicion, Raffles had become the elderly busybody with nerves. Why I could not for the life of me imagine, and the policeman seemed equally at sea.

"Lor' bless you, sir," said he, "I'm all right. Don't you bother your head about me?"

"But you haven't even got a trunk-ee!"

"Not likely to want one either. You see, sir, it's early as yet. In a few minutes these here rooms will fill up, and there's safety in numbers, as they say."

"Oh, it will fill up soon, will it?"

"Any minute now, sir."

"Ah!"

"It isn't often empty as long as this, sir. It's the jubilee, I suppose."

"Meanwhile what if my friend and I had been professional thieves? Why, we could have overpowered you in an instant, my good fellow!"

"That you couldn't; leastways not without bringing the whole place about your ears."

"Well, I shall write to the Times all the same. I'm a connoisseur in all this sort of thing, and I won't have unnecessary risks run with the nation's property. You said there was an attendant just outside, but he sounds to me as though he were at the other end of the corridor. I shall write today."

For an instant we all three listened, and Raffles was right. Then I saw two things in one glance. Raffles had stepped a few inches backward and stood poised upon the ball of each foot, his arms half raised, a light in his eyes, and another kind of light was breaking over the crass features of our friend the constable.

"Then shall I tell you what I'll do?" he cried, with a sudden clutch at the whistle chain on his chest. The whistle flew out, but it never reached his lips. There were a couple of sharp snarls like double barrels discharged all but simultaneously, and the man recoiled against me so that I could not help catching him as he fell.

"Well done, Bunny! I've knocked him out! I've knocked him out! Run you to the door and see if the attendants have heard anything, and take them on if they have."

Mechanically I did as I was told. There was no time for thought, still less for remorse or reproach, though my surprise must have been even more complete than that of the constable before Raffles knocked the sense out of him. Even in my utter bewilderment, however, the instinctive caution of the real criminal did not desert me. I ran to the door, but I scanned through it to plant myself before a Pompeian fresco in the corridor, and there were the two attendants sitting on the floor outside the farther door, and they hear the dull crash

piece, this costly trophy whose ancient history and final fate filled newspaper columns even in these days of jubilee and for which the flower of Scotland Yard was said to be seeking high and low. Our constable, we learned, had been stunned only, and from the moment that I brought him an evening paper with the news Raffles' spirits rose to a height inconsistent with his equable temperament and as unusual in him as the sudden impulse upon which he had acted with such effect. The cup itself appealed to me no more than it had done before. Exquisite it might be, handsome it was, but so light in the hand that the mere gold of it would scarcely have poured three figures out of melting pot. And what said Raffles but that he would never melt it at all!

"Taking it was an offense against the laws of the land, Bunny. That is nothing. But destroying it would be a crime against God and art, and may I be spitted on the vane of St. Mary Abbot's if I commit it!"

**MOTHERHOOD**

**Actual Sterility in Women Is Very Rare—Healthy Mothers and Children Make Happy Homes.**

Many women long for a child to bless their homes, but because of some debility or displacement of the female organs they are barren.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire female organism, curing all displacements, ulceration and inflammation.

A woman who is in good physical condition transmits to her children the blessings of a good constitution. Is not that an incentive to prepare for a healthy maternity?

If expectant mothers would fortify themselves with Lydia E. Pinkham's Vegetable Compound, which for thirty years has sustained thousands of women in this condition, there would be a great decrease in miscarriages, in suffering, and in disappointments at birth.

The following letters to Mrs. Pinkham demonstrate the power of Lydia E. Pinkham's Vegetable Compound in such cases.

Mrs. L. C. Glover, Vice-President of Milwaukee Business Woman's Association, of 614 Grove Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"I was married for several years and no children blessed our home. The doctor said I had a complication of female troubles and could not have any children unless I could be cured. For months I took his medicines, trying in vain for a cure, but at last my husband became disgusted and suggested that I try Lydia E. Pinkham's Vegetable Compound; this I did, and I improved steadily in health, and in less than two years a beautiful child came to bless our home. Now we have something to live for, and all the credit is due to Lydia E. Pinkham's Vegetable Compound."

Mrs. Mae P. Wharry, Secretary of the North Shore Oratorical Society, The Norman, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"I was married for five years and gave birth to two premature children. Lydia E. Pinkham's Vegetable Compound was recommended to me, and I am so glad I took it, for it changed me from a weak, nervous woman to a strong, happy and healthy one within seven months. Within two years a lovely little girl was born, which is the pride and joy of our household. Every day I bless Lydia E. Pinkham's Vegetable Compound for the light, health and happiness it brought to our home."

If any woman thinks she is sterile, or has doubts about her ability to carry a child to a mature birth, let her write to Mrs. Pinkham, Lynn, Mass., whose advice is free to all expectant or would-be mothers. She has helped thousands of women through this anxious period.

Women suffering with irregular or painful menstruation, leucorrhoea, displacement, ulceration or inflammation of the womb, that bearing down feeling or ovarian trouble, backache, bloating or nervous prostration, should remember that Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of woman's ills, and accept no substitutes.

Many Women Have Been Benefited by Mrs. Pinkham's Advice and Medicine.

## ANNEXATION

Talk Prompts Allegations Against American Minister.

Havana, Oct. 27.—The administration newspapers characterize the talk of annexation to the United States which has cropped out in connection with the Anglo-Cuban commercial treaty, as a conspiracy, and even broadly hint that Herbert C. Squires, the American minister, is a party to it. An unauthorized report is published that Mr. Squires' recall will be requested. The report is treated as a joke. One version of the reason for the government's resistance in upholding the Anglo-Cuban treaty is the possibility that Great Britain will withdraw her position and regard Cuba as a vassal of the United States.

## DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide is the germ that causes it. The same germ causes hair to fall out, and later, when it kills it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 30c. in stamps for sample to The Herpicide Co., Detroit, Mich.

## PROF. R. S. COLWELL

Denounces Present System of Education of Women in American Colleges at State Federation.

Zanesville, Oct. 27.—Dr. R. S. Colwell of Denison university, Granville, in speaking before the convention of federated clubs, surprised the women assembled in Zanesville, when he announced emphatically that the present system of education for girls in the United States at women's colleges, and co-educational institutions is a miserable failure and wretched blunder.

"I assert," said Dr. Colwell, "with all possible emphasis and indignation that the school has been worse than nothing for the women of the United States in its stupendous folly and criminal neglect."

His speech was in the main, a plea for a radical and immediate change in the educational system, and a request for the women to remedy the present evil. As Dr. Colwell has a daughter who has taken degrees both at Vassar and Columbia university, his remarks were a surprise.

Mrs. Buchwalter, chairman of the civil service committee, urged a consideration of methods that would create a public opinion calculated to increase interest in this most important phase of government.

## STATE NEWS

### Fire at Magnetic Springs.

Magnetic Springs, O., Oct. 27.—Fire this morning burned the Conrad & Ierod sanitarium, drug store and residence. It started in the engine room of the bath house of the sanitarium. All the patients were taken out in safety. Loss, \$20,000.

Cleveland, O., Oct. 27.—The Indemnity Savings and Loan company which recently passed into the hands of a receiver, according to the report of the trustees filed in the circuit court owes its 3,000 depositors, most of whom live in Ohio \$665,325, of which \$308,789 is due at once, if the company waives its right to 60 days notice on the passbooks. To meet this liability the company has \$99,401 of cash on hand and \$46,805 of negotiable securities immediately convertible into money, consisting of real estate and collateral loans.

### Expects Indictments.

Columbus, O., Oct. 27.—F. S. Monnett, who has returned from Akron, says he expects that several indictments will be returned by the grand jury now investigating the alleged bridge combine. The grand jury adjourned over until Monday because three of the officials of the Cleveland bridge companies summoned to appear before the body had forwarded physicians' certificates of illness. It is the intention to keep the jury in session until they are heard.

### Sheriff Indicted.

Dayton, O., Oct. 27.—The grand jury which has been investigating alleged illegal charges made by Sheriff John A. Wright returned 12 indictments, jointly, against the sheriff and his son, Deputy Sheriff Ed O. Wright. Nine of the indictments are based on charges made by the sheriff in conveying at one time nine feeble-minded children from Dayton to the State institution at Columbus.

### Asleep on the Track.

Portsmouth, O., Oct. 27.—James Manning, whose home is in Rochester, N. Y., was instantly killed by a streetcar. He was intoxicated and was put off on a suburban line. He then went to sleep on the tracks and the same crew that put him off ran him down and his body was terribly mangled.

### Discredit Sensational Report.

Havana, Oct. 27.—A rumor is in circulation that General Jose Miguel Gomez, former governor of Santa Clara province, until recently a candidate for the presidency of Cuba, and who is now in the United States, is buying 6,000 rifles in the United States for the purpose of organizing a revolution in Cuba. General Freyre and Rude, secretary of the interior, when questioned on the subject said: "If Gomez brought the rifles to Cuba he would not find any men to carry them, much less fight with them. We have heard such rumors. They seem to be gotten up for the purpose of convincing the United States government that there is a spirit of unrest in Cuba. In any event the United States will not permit the dispatch of arms to Cuba."

## INDEPENDENT

Tobacco Men in Conference With Henry W. Taft.

New York, Oct. 27.—The Independent Tobacco Manufacturers' association of the United States has been in session at the Hotel Astor. The association is composed of manufacturers who are opposed to the so-called tobacco trust. Forty-two manufacturers are included in the membership and 38 of these were present in person. The president of the association is Hiram Miller of Philadelphia; secretary, Walter H. Frohlander of Cincinnati; treasurer, John W. Surland of New York. There was a conference with Henry W. Taft, who is at present investigating the so-called trust.

## AMUSEMENTS

An exceedingly bright and breezy comedy is "The School for Husbands," which will have its first representation here this week, after a long and successful season in the east, having confined its run since the beginning to one city. It will be presented at the Auditorium with Alice Fischer and the original cast, tonight, Oct. 27.

### THEATRICAL NOTES.

"The Mummy and the Humming Bird," elaborately produced by Jules Murry's own company, including William A. Whittear in the role of the "Mummy," in which he made such a signal triumph last season, is one of the early bookings here.

A garden party in Dutch New Amsterdam, at which a Cavalier of France and a Gallant from Holland are vigorous rivals for the hand of the most beautiful girl in the new world, is one of the unique, witty and finely colored acts of Paul Gilmore's handsome production of the spectacular comedy romance, "Captain Debonnaire." This is one of the most interesting of the attractions soon to be seen here.

There are sixteen different nationalities represented among the sixty-four chorus girls in "The Mayor of Tokio" which will come to the Auditorium in the near future.

### AT GREAT SOUTHERN.

Seldom has any comedienne succeeded so well in duplicating a first act as has Alice Fischer in her presentation of the comedy "The School for Husbands." She appears in this production at the Great Southern theatre, Columbus, Monday, October 30.

That most polished and able of the omatic actors, Otis Skinner, appears at the Great Southern theatre Wednesday matinee and night, November 1, in Clyde Fitch's comedy, "His Grace's Grammont." The adaptability of the actor to play, and play to actor, is in this case, perfect. Mr. Skinner occupies the foremost position on the American stage in interpreting the motions generally designated as "romantic," and Clyde Fitch's comedy exalts in its every line a fragrance of idealism. The scenes of this play are of course, of the time of Charles II. of England, and introduce most of the prominent figures of the day. One of the settings represents a rose garden. With this background and atmosphere Mr. Skinner renders a love song which is said to transport the audience. He is supported by a strong company.

On Friday and Saturday, November 4 and 5, with a matinee on Saturday, "The Eternal City" will be presented at the Great Southern. This dramatization of Hall Caine's powerful story is now in its third season, and the act that it has met with large audiences everywhere during all of this time is adequate proof of its merits as a stirring drama. The prominent emotional actress, Jane Kennark, interprets the leading role of "Roma."

### BIG HEARTED JIM.

"Big Hearted Jim" is a big, hearty play and with George Klimt in the title role it is one of the very best attractions this community will see this season. It is not a sensational melodrama, but a wholesome, worthy, strong American play with the genuine appeal of the true melodrama. There are a dozen good characters besides the fearless but tender hearted Montana sheriff, Mr. Klimt plays, and all are in good hands for Klimt and Jazolo maintain a high standard for their companies. "Big Hearted Jim" is the new play selected by Mr. Klimt for his touring season. Four western stage pictures true to life, are shown. Auditorium, Wednesday, Nov. 1, matinee and night.

William H. York, charged with the murder of his aged brother, James, took an overdose of morphine and cut his throat in jail at Lawrenceburg, Ky.

**Women as Well as Men Are Made Miserable by Kidney Trouble.**

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it. Home of Swamp-Root, 333 North Second Street, Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root and the address, Binghamton, N. Y., on every bottle.

**A PITIFUL STORY TOLD TO TRUSTEES**

MOTHER FOUND IT IMPOSSIBLE TO LIVE WITHOUT HER LITTLE BABY.

Finally Abandoned Effort to Earn Living, Took Child and Returned to Her Mother's Home.

About two weeks ago Mrs. Sarah Thompson, a well known woman of this city, called on the Township trustees, and related a pitiful story. She said that about a year ago her husband had deserted her and left for parts unknown, and since that time she had been thrown on her own resources. She said that shortly after her husband had left a little child was born, and since then she had found it very difficult to obtain employment. She had, however, worked as a domestic about the city, and had always managed to keep her baby with her, although nearly every place she worked objection was made to the child. She finally realized that unless a home could be found for the child she would be compelled to give up the struggle and to that end she desired the trustees to assist her. The trustees, after hearing her story, made arrangements with Mrs. M. H. Burton of Baltimore street, to care for the child until other arrangements could be made, and for nearly two weeks the mother has been separated from her little one. She finally concluded that she could live no longer without her baby and on Wednesday visited the Burton home, secured possession of the child, and left for Dresden, where she will make her home with her mother. The case is a very pathetic one.

**ALL ARE INVITED TO THE MEETING**

THREE SESSIONS OF GOOD ROADS CONVENTION IN TAYLOR HALL MONDAY.

Committee Will Raise \$200 to Defray Expenses of Meeting to be Held in Newark.

Ladies, as well as gentlemen, are invited to attend the Good Roads meeting at Taylor Hall, Y. M. C. A., on next Tuesday. Three sessions, 10 a.m., 2 p.m., and 8 p.m. Speakers of world wide reputation will be present. Bringing this convention to our city necessitates expenses for the day of about \$200. On Saturday the finance committee will call on our citizens to raise this amount. Not a cent is paid these speakers, but just the daily expense is met by the county holding the convention. It is hoped the citizens will respond liberally as this movement means much benefit to our city and county. Mr. Loucks will speak in the Mayor's office Saturday evening, completing arrangements for the convention Tuesday. Go to this meeting.

**BATTERY H.**

Has Been Made an Infantry Command and is Now Attached to the Fourth Regiment.

Because the change of its equipment from 2.1-inch rifles to machine guns altered the character of Battery H and made it an infantry command, that famous military organization of Columbus has lost its identity and has become a part of the Fourth regiment. The order of transfer was made on Thursday by Adjutant General Critchfield. To make room for the former battery in the Fourth infantry company of Xenia, was transferred to the Third infantry, with headquarters at Dayton.

In a similar way Battery B. of Cincinnati, was made a part of the First infantry when it received machine guns.

The Cleveland and Toledo batteries will retain their heavy guns and so will remain in the artillery service.

**J. M. JACK**

Father of Popular Horseman Died on Monday After a Brief Illness—New Starter Secured.

Secretary J. M. Farmer of the Driving Park company received a letter Friday from Lou Jack, who had been engaged to officiate as starter for the races this week. Mr. Jack stated that his father, J. M. Jack, whose serious illness prevented him from coming to Newark, died on Monday, his illness lasting but four days. The Senior Mr. Jack was 79 years old. Howard Martin of Wilmington will officiate as starter in the place of Mr. Jack.

The host of friends among the racing fraternity here will sympathize with this popular horseman in his bereavement and extend their condolences to him in his sorrow.

**IN BUCKEYE LAKE**

Three Hundred Large Mouthed Bass From State Hatchery are Planted There on Friday.

Game Warden Porterfield transferred some 300 large mouthed black bass, weighing from one to six ounces, from the London hatchery to Buckeye Lake Friday, the fish being transported in a special interurban railway car. A similar plant was made two years ago. These fish have been raised at the hatchery and retained for hatching purposes. The supply on hand has recently become too large for the hatchery readily to accommodate. The addition to the Buckeye Lake stock of bass will be most acceptable to fishermen who have had poor success in bass fishing there during the fall.

Make a note now to get Ely's Cream Balm if you are troubled with nasal catarrh, hay fever or cold in the head. It is purifying and soothing to the sensitive membranes that line the air-passages. It is made to cure the disease, not to fool the patient by a short, deceptive relief. There is no cocaine nor mercury in it. Do not be talked into taking a substitute for Ely's Cream Balm. All druggists sell it. Price 50c. Mailed by Ely Bros., 56 Warren street, New York. mwf-if

**FLASH**

Leaped From the Dynamo to Knife in the Tender's Pocket—Now Marred for Life.

Cleveland, O., Oct. 27.—An open pocket knife caused a bad accident at the street railway company's Cedar avenue power house and tied up the East End lines for half an hour.

Evon Williams an electrician, was burned about the face, hands and arms and probably will be disfigured for life.

William, was working around one of the big dynamos. He had been using his knife and neglected to close it when he returned it to his pocket. The cutting in a flash of flame leaped from the dynamo to the knife. Williams was shocked into helplessness and badly burned.

**OLD AGE**

Our Local Druggist Tells People of Newark How to Ward It Off.

Some people at fifty call themselves old, and really appear so, while others at seventy seem active, vigorous and young.

A reporter of the Advocate happened in the store of Frank D. Hall, our local druggist, the other evening, and this subject was brought up. Said Mr. Hall: "It is a fact and we see it illustrated every day right here in Newark. It is not years; old age does not begin at any set time, but it is loss of vital force that makes a person old. A severe sickness, weakened digestion, thin blood, or poor circulation soon starts vitality on the wane and then a person rapidly ages.

"On the other hand," continued Mr. Hall, "if people of Newark only knew how our cod liver preparation, Vinol, wards off old age, we would not have clerks enough in our store to supply the demand.

"You see, Vinol contains all the vitality making, body-building principles of cod liver oil, but without a drop of the system-clogging oil. It strengthens digestive organs, makes rich, red blood, repairs worn tissues, checks the natural decline and replaces weakness with strength.

"One good customer of Vinol, who is seventy-eight years of age, says he would not take \$1000 for the good it has done him, and we wish every good person in Newark would try Vinol on our guarantee to return money if it fails." Frank D. Hall.
